## Adult Recognition

Today we recognize the important role faith has in Catholic Scouting. Catholic Scouting calls us to engage our young men and women not only in the aspects of scouting that help build leadership, but also an ever growing awareness of their faith and participation in those activities that foster growth in faith.

Additionally, we are reminded that without our role models who reflect the values of our Catholic Faith and who encourage our young people, our task would be far more difficult. Therefore, today we also recognize adult leaders who encourage and promote the Religious Emblem Programs that enable our young people to experience these opportunities to deepen and nurture their faith life.
