

## FAQ's Sandbar Park

There is no fixed time for this pilgrimage. It is meant to be done independently or shared with a small group.

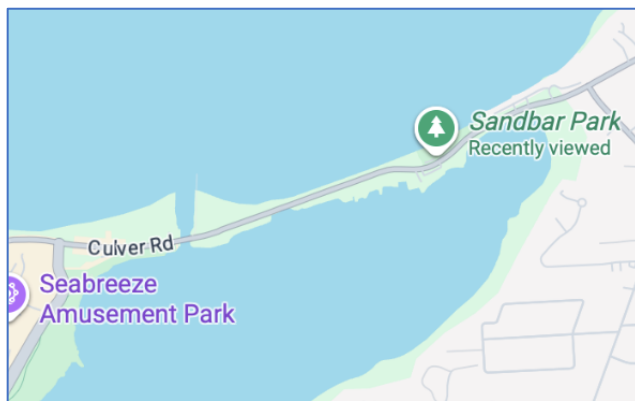

### Location

302 Lake Rd, Webster, NY 14580

The bridge over the bay outlet is not passable until November 1.

To access the park from any place on the west side of the bay, you will need to take 104 over the bay and exit at Bay Rd, turning right and following Bay Rd north until it ends at Lake Rd.

Then turn left and the park is just ahead on your right.

### Parking

There is parking on both the bay and lake sides of Lake Rd. There are several spots marked for handicapped parking.

### Accessibility

This is an ideal pilgrimage destination for someone who desires to try a pilgrimage or meditative experience but would find the other suggested sites challenging in terms of the energy required or because of difficulty walking. The pilgrimage site is fully accessible for walkers, wheelchairs and strollers. Most of the pathways are flat with a stone dust surface. There is a very short gently sloped walkway to get to the benches.

There are several picnic tables a very short distance from the parking spots. There benches overlooking the water. After about noon, most of the benches are in the shade. There is a small playground for younger children (4-5 years).

### Other

Most of the time during the week, this is a very quiet, unbusy, spot. Be aware there is almost always a breeze coming off the lake. Consider taking an additional sweater/jacket just in case.

Public restrooms are available.
